5+ Years of Experience • 500+ Projects Delivered • Global Client Work

PROFILE

Web Designer & Developer with 5+ years of experience delivering 500+ web projects for international businesses, eCommerce brands, and agencies. Skilled across WordPress, Wix Studio, Webflow, Shopify, and custom development, with a focus on responsive UX, performance, and practical business outcomes.

Known for clear communication, end-to-end project ownership, and reliable white-label agency support.

PROFESSIONAL EXPERIENCE

Freelance Web Designer & Developer

Self-Employed — International Clients | 2021 – Present

- Delivered 500+ websites and web projects for international clients through direct engagements, Fiverr, Upwork, and agency partnerships.
- Designed business websites, landing pages, eCommerce stores, portfolios, redesigns, and custom solutions across WordPress, Wix Studio, Webflow, Shopify, and custom stacks.
- Converted Figma, PSD, XD, and reference designs into responsive, production-ready websites with consistent cross-device quality.
- Built eCommerce and custom functionality, including payments, shipping, bookings, memberships, directories, advanced forms, APIs, and third-party integrations.
- Improved existing websites through UX/UI redesign, responsive fixes, speed optimization, technical SEO, migrations, bug fixing, and ongoing maintenance.
- Managed discovery, scoping, communication, testing, launch, revisions, and post-launch support.
- Provided discreet white-label and overflow website development support for agencies.
